WART EXCISION AFTERCARE

- 1) Keep the dressing clean and dry for 24 hours.
- 2) Starting tomorrow, keep bandages on while you shower, then remove it afterward and clean your foot separately after your shower.
- 3) You may wash the area gently with mild soap and water.
- 4) Apply topical antibiotic with each dressing change and cover it with a band-aid.
- 5) If a scab forms at the site, leave it in place.
- 6) Continue with daily bandage changes until the wound has closed.
- 7) Call your physician immediately if you notice any redness, warmth, discharge, or other signs of infection at the biopsy site.
- 8) Call your physician immediately if you experience significant bleeding at the biopsy site.

If you have any questions, please contact us.
